August 20, 2014

Farmingville, NY - Supervisor Ed Romaine wants residents to know about New York State Energy Research and Development Authority (NYSERDA) programs for homeowners who want to save money through energy efficiency upgrades.

NYSERDA is offering two low-interest financing programs for loans of as much as \$13,000 per household, or \$25,000 if energy upgrades will pay for themselves in savings within 15 years or less. Eligible homeowners can qualify for a grant of up to \$5,000 to cover up to 50 percent of the cost of energy efficiency upgrades through the Assisted Home Performance with Energy Star Program. The maximum grant increases to \$10,000 in two- to four-unit residential buildings with additional income-qualified households. To learn more about the programs, visit www.nyserda.ny.gov.
